RAGTIME & BEYOND

Ragtime is a uniquely American style of music that evolved from the playing of honky-tonk pianists along the Mississippi and Missouri rivers in the late 1800's. It was influenced by African American banjo styles, off-beat dance rhythms of the cakewalk, and elements from European music. Ragtime enjoyed its peak popularity between 1897 and 1918, and its sound was the forerunner to genres like jazz and American pop.
