Selected Zoning Maps, 1927-2021

Lowest Density | Medium Density | Highest Density | Non-Residential

	1927	1965	2001	2021
Manchester				
Center City				
North End				

Highest Density refers to zoning category that allows the greatest number of families for that period. Medium Density refers to zoning categories that are less dense than the maximum, but are also not single-family. Map and Analysis by the Granite State News Collaborative.
