BUT WHY

A Learning Guide | Kindergarten to Grade 3

But Why is led by you, kids! Kids all over the world send us questions, and we find the answers. We've created these learning units to be used in a classroom setting or at home. Watch the video first and then use this guide to deepen your understanding of what you've learned.

"Why do we change presidents?"

Question from Louie, 6

An **election** is a formal and organized choice by vote of a person or idea.

Most grownups, over the age of 18 years old, cast a ballot to confirm their choice or vote. The choice they make typically aligns with an idea that is important to them.

What topic or idea is important to you?

Below, explore why this idea or issue is important. Write or draw some details about this issue or idea. If the issue is in need of a suggestion or solution, add these details as your opinion. Someone else may have a different opinion or solution but that is okay.

Like you, sometimes, grownups will share their idea in the form of a letter to a lawmaker or someone who makes rules and laws that impact us.

You can try to share your opinion using the letter template here.
