May by showcasing many great performers of the past, as we look forward to keeping the legacy alive in the second week of the festival.

This year the festival has been named the Greater Spokane Music and Allied Arts Festival. Now called Musicfest Northwest, it continues every May as a major effort involving well over a thousand (mostly young) musicians and over a dozen renowned teachers as adjudicators; a musical term for a combination of teaching and judging.

Started by a piano teacher named Josephine Clark, this festival originally centered around piano playing. It soon grew into all instruments, and took the name Greater Spokane Music and Allied Arts Festival. Now called Musicfest Northwest, it continues every May as a major effort involving well over a thousand (mostly young) musicians and over a dozen renowned teachers as adjudicators; a musical term for a combination of teaching and judging.

In the early 1990s KPBX had a borrowed grand piano in our small public areas of the station itself. Diligent sanitary precautions are taken in the studios and public areas of the station itself.

And there are deeper impacts. Some stations around the country are projecting 20% decreases in operational revenue this year from underwriting and membership. I have projected an optimistic 12% reduction because of the high loyalty of our membership. But these are difficult numbers to predict. This is also on top of a projected 15% increase in NPR fees (about $30,000).

With all of this in mind, a "calm" fund drive is underway as we endeavor to support and sustain our service, to maintain the news you can use, and to keep music and entertainment on the air to soothe and enlighten our spirits. By pledging now, you help us keep our airtime focused on the rapidly changing landscape of news and information, and you help public media stations stay afloat and viable through this difficult time.

Your support is always welcome at Spokane Public Radio. For $10 per month, you can help support and sustain our service, to maintain the news you can use, and to keep music and entertainment on the air. Your support makes this public radio service possible.

First, thank you for your ongoing support. These are unprecedented times in public radio as they are across the nation, and in our communities.

At SPR we are doing our best to bring you news and information you can rely on and use, in as timely a manner as possible. News from around the nation, the state, and world—from NPR and BBC and our own reporters—is brought to your cars and living rooms through SPR. It’s truly a great honor to work with such selfless and diligent colleagues here and around the world.

The COVID-19 virus has changed the way SPR operates. Several staff members are working from home as they can, even as others hold down the fort in our studios. Diligent sanitary precautions are taken in the studios and public areas of the station itself.
