

BUT WHY

A Learning Guide

Best for Kindergarten to Grade 3

But Why is a podcast led by you, kids! It's a big interesting world out there. Kids all over the world send us questions, and we find the answers. We've created these learning guides to be used in a classroom setting or at home. Listen to each episode and use this guide to deepen your understanding of what you've heard.

Why do earthquakes happen?

BIG QUESTION: Why do earthquakes happen? - Evan, 6

Seismology is the study of how the earth moves and what happens within the earth. When big plates within the earth move and settle they send energy waves which we feel and call earthquakes. Draw or write more about earthquakes.

Draw or write
