INDEPENDENT AUDITORS' REPORT

To the Board of Trustees,
University of Florida:

Report on the Financial Statements

We have audited the accompanying financial statements of WUFT-FM (the "Station"), a public telecommunications entity operated by the University of Florida, as of and for the years ended June 30, 2016 and 2015, and the related notes to the financial statements, which collectively comprise the Station's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management of the Station is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Station as of June 30, 2016 and 2015, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Station's basic financial statements. The schedule of functional expenses is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of functional expenses (Exhibit I) is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of functional expenses is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 13, 2017, on our consideration of the Station's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Station's internal control over financial reporting and compliance.

WUFT-FM
A PUBLIC TELECOMMUNICATIONS ENTITY OPERATED BY
THE UNIVERSITY OF FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2016 AND 2015

This report is provided for your convenience and understanding of WUFT-FM's (the "Station") financial condition and operating activities for the fiscal years ended June 30, 2016 and 2015. The Governmental Accounting Standards Board has not developed accounting standards for presentation of auxiliary (or departmental) entities. The Station's accounting policies and practices do, however, conform to those permitted or allowed by the Corporation for Public Broadcasting, which generally follow published Governmental Accounting Standards. Our discussion and analysis is required by accounting principles generally accepted in the United States of America in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* and Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis - for Colleges and Universities.* The overview presented below highlights the significant financial activities which occurred during the past year and describes changes in financial activity from the prior year. Please read this overview in conjunction with our comparative statements of net position on page 9, our statements of revenues, expenses, and changes in net position on page 10, and our notes to the financial statements which begin on Page 12.

Financial Highlights for the Year Ended June 30, 2016

WUFT-FM, WUFT Classic and satellite/repeater radio station WJUF-FM continues to be a unique and powerful success story among public radio stations in America in that it has positioned itself as a leader in local programming and community service throughout the region. WUFT-FM is an audience ratings leader and a public media entity that prides itself on an unusually high level of community involvement, especially for a non-commercial radio station. WUFT-FM, WUFT Classic and WJUF-FM continue to focus programming on news, information and entertainment while the stations play a substantial role in the education of University of Florida College of Journalism & Communications students who have an interest in pursuing careers in journalism and the media industry.

WUFT-FM continues to serve the communities of north Florida as a market leader entering FY '17 and maintains the positive momentum it has enjoyed the past few years through a continued commitment to local news, information, entertainment and emergency messaging. Additionally, revenue production remains strong and the station is positioned well in the market. To that end, WUFT-FM continues to expand local programming of news, information and community service initiatives that form the core of our relationship with north Florida and the nature coast region of west Florida. The Innovation News Center continues to grow in the production of unique and powerful local content, the impact of this state of the art newsgathering and content generation facility cannot be overestimated. WUFT-FM's audience remains engaged in the programming of the radio station and WUFT-FM's management and staff remain proud of the leadership position we've taken in the community.

WUFT-FM's net position decreased slightly in FY '16 to $6,888,405 from $7,171,996 at the close of FY '15. While this position is a slight decrease the foundation on which Florida's 89.1, WUFT-FM is built positions the radio station well for the future and our investment in infrastructure, programming and local audience engagement continues to be our primary priorities. WUFT-FM's impact on the local market cannot be overstated and activity related to underwriting and membership support is strong and the staff feels is getting more attention than ever before.

In the early 2010's the state of Florida eliminated or reduced funding for public media throughout the state. In response WUFT-FM became even more aggressive and impactful locally and the effect continues to play out to the positive for the radio station(s). The overall financial health of WUFT-FM, WUFT Classic and WJUF-FM continues to be strong as well following those challenging years of reduced state and University funding. During the past several years WUFT-FM has spearheaded an effort to launch the Florida Public Radio Emergency Network, of which WUFT-FM is the "host" radio station

for content distribution for 12 public radio stations that cover the entire state of Florida. Funding in support of this project has come to WUFT-FM in the form of approximately $166,270 in new grant funding from the state of Florida Department of Education. Additionally membership and underwriting revenue continue to be strong at $446,968 and $662,038 respectively in FY '16, an increase for both of those areas over FY '15.

WUFT-FM's growth over recent years has garnered the attention of public media colleagues and the FY '15 receipt of Greater Media's "Benchmark" award was testament to the great work of the staff of the radio station since the funding challenges of the early 2010's. While that growth has slowed in FY '16 the improvements continued in FY '16 over FY '15 and the staff continues focused on further enhancing community service and support from WUFT-FM's listeners.

WUFT-FM (and satellite radio station WJUF-FM) remains a unique success story among public radio stations in America in that it has positioned itself as the top-rated radio station in the city of license (Gainesville, Florida) among both public and commercial radio properties and it has now remained in that leadership position for several consecutive Arbitron ratings periods. An extraordinary accomplishment for any radio station, this honor is especially unique for a non-commercial radio station that focuses on news, information and service to the community while training future generations of broadcasters and multimedia journalists.

WUFT-FM continues to expand local programming of news, information and community service initiatives that form the core of our relationship with north Florida. WUFT-FM's Innovation News Center continues to invest in enhanced coverage of local news and issues of importance and the radio station's commitment to service beyond the coverage area of WUFT-FM continues to grow. The Florida Public Radio Emergency Network, hosted by WUFT-FM played a significant role in the statewide coverage of two hurricanes during the past hurricane season including Hurricane Matthew when the FPREN StormCenter (programmed and supported by WUFT-FM) broadcast live to various public radio stations throughout Florida for more than 40 hours straight.

Financial Highlights for the Year Ended June 30, 2015

WUFT-FM (and satellite radio station WJUF-FM) remains a unique and wonderful success story among public radio stations in America in that it has positioned itself as a leader in local programming and community service throughout the region producing unusually high audience ratings, especially for a non-commercial radio station. An extraordinary accomplishment for any radio station in 2015, this honor is especially unique for a public radio station that focuses on news, information and service to the community while training future generations of broadcasters and multimedia journalists.

WUFT-FM continues to grow as we enter FY '16 and is growing after achieving record highs in FY '15 in both underwriting and membership support for the radio station. Additionally, WUFT-FM continues to expand local programming of news, information and community service initiatives that form the core of our relationship with north Florida and the nature coast region of west Florida. As the Innovation News Center continues to grow in the production of unique and powerful local content, the impact of this state of the art newsgathering and content generation facility cannot be overestimated. WUFT-FM's audience remains engaged in the programming of the radio station and WUFT-FM's management and staff remain proud of the leadership position we've taken in the community.

The University of Florida's WUFT-FM, a 100,000 watt public radio station serving the north Florida region, continues to see success in various areas of the operation and in meeting its mission of serving the communities of the region while educating future generations of multimedia professionals. During FY '15 WUFT-FM continued to enjoy strong audience ratings and revenue growth in several key areas.

WUFT-FM's net position decreased slightly in FY '15 to $7,171,996 from $7,322,221 at the close of FY '14. While this position is a slight decrease the foundation on which Florida's 89.1, WUFT-FM is built positions the radio station well for the future and our investment in infrastructure, programming and local audience engagement continues to be our primary priorities.

The overall financial health of the entity continues to be strong as well following several challenging years of reduced state and University funding. During the past two years WUFT-FM has spearheaded an effort to launch the Florida Public Radio Emergency Network, of which WUFT-FM is the "host" radio station for content distribution for 12 public radio stations that cover the entire state of Florida. Funding in support of this project has come to WUFT-FM in the form of approximately $166,000 in new grant funding from the state of Florida Department of Education. Additionally membership revenue set a new "high water" mark of $438,950 in FY '15 just as underwriting support hit a record high of $633,115, surpassing last year's record of $624,517.

Further underscoring the extraordinary growth of WUFT-FM over the past five years the radio station received the "Benchmark" award from Greater Media during this past year for the largest growth in underwriting and membership while managing expenses of the public radio stations measured across the United States. This honor is a true testament to the professional, enthusiastic staff and their belief in the power of the radio station.

WUFT-FM (and satellite radio station WJUF-FM) remains a unique success story among public radio stations in America in that it has positioned itself as the top-rated radio station in the city of license (Gainesville, Florida) among both public and commercial radio properties and it has now remained in that leadership position for several consecutive Arbitron ratings periods. An extraordinary accomplishment for any radio station, this honor is especially unique for a non-commercial radio station that focuses on news, information and service to the community while training future generations of broadcasters and multimedia journalists.

WUFT-FM continues to expand local programming of news, information and community service initiatives that form the core of our relationship with north Florida. As the Innovation News Center is midway through its third year of existence the impact of this state of the art newsgathering and content generation facility cannot be overestimated. WUFT-FM's audience remains engaged in the programming of the radio station and WUFT-FM's management and staff remain proud of the leadership position we've taken in the community.

USING THESE FINANCIAL STATEMENTS

These financial statements consist of statements of net position and statements of revenues, expenses, and changes in net position and cash flows. The statements of net position and the statements of revenues, expenses, and changes in net position help to answer the question of whether the Station is better or worse as a result of the year's activities. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

THE REPORTING ENTITY

The Station is a department of the University of Florida and these financial statements included assets, liabilities and activity related to its public broadcasting function. This includes account activity within the University, as well as the University of Florida Foundation, which are under the control of the Station manager.

Cash and cash equivalents, beginning of year	1,349,307	584,576	34,707
Cash and cash equivalents, end of year	$ 1,316,079	$ 1,349,307	$ 584,576

Current assets consist primarily of cash and cash equivalents, grant receivables, underwriting receivables, restricted pledges, investments, and prepaid program costs. The Station's investment in capital assets includes building and building improvements, furniture, and fixtures and equipment. The major capital asset event during the prior fiscal year resulted from the FPREN Storm Center, mentioned earlier as the Florida Public Radio Emergency Network. Current liabilities consist of accounts payable and accrued expenses, as well as the current portion of compensated absences.

Operating revenues consists primarily of community service and capital grants from the Corporation of Public Broadcasting, appropriations and indirect support from the University of Florida, State of Florida Department of Education funds, membership and business contributions and contributed support through underwriting, donated assets and services, and other. Operating expenses consists of expenses for programming and production, broadcasting, management and general, membership development and depreciation.

NEXT YEAR

The University of Florida's WUFT-FM continues to perform as one of the most influential and impactful public radio stations in the country and the future remains bright from both an audience ratings and revenue enhancement perspective. The UF Division of Media Properties and College of Journalism & Communications remains quite enthusiastic about the future of the radio station and its impact on the various communities of north Florida and the students the radio station serves as a training ground for. With a dual mission of service to the region and providing extraordinary multimedia experiences for University of Florida students, WUFT-FM is becoming widely recognized as a leader in the industry and academic community.

WUFT-FM, a full-power (100,000 watt) non-commercial radio station, continues to emphasize diversity and service in programming decisions and the audience is responding. WUFT-FM remains committed to Spanish-language programming, honoring the ever-growing diversity of the Florida population. Saturday morning's feature Noticias, a half-hour all-Spanish news program emphasizing news and information for Spanish-speaking listeners in north Florida and around the world through WUFT.org. WUFT-HD3 recently launched a new multimedia project called GHQ, which provides a laboratory for students to work with staff and industry leaders on researching a music-formatted radio station that's centered on a digital and mobile platform (app). WUFT-FM anticipates this project gaining attention nationally due to the ongoing challenge the radio industry has in attracting and maintaining strong listenership and engagement among Millennials and Gen Z'ers.

FY '17 is slated to be another exciting year of service to the station's listeners and students at the University of Florida. Launched in FY '14, the Florida Public Radio Emergency Network (FPREN), which is a project spearheaded and housed at WUFT-FM's studios in Gainesville, Florida, now serves 12 public radio stations that cover the entire state of Florida. FPREN utilizes a unique state of the art distribution technology to ensure each of Florida's public radio stations have access to emergency information produced at the FPREN StormCenter at WUFT-FM anytime day or night. While the focus for much of FPREN was originally on hurricane and tropical weather disturbances and issues, FPREN's real goal is to provide emergency information year-round regardless of the source of the problem or issue. Additionally WUFT-FM launched "WUFT Classic" a 24-hour a day, 7 days a week radio station dedicated to the arts including classical music. WUFT-FM HD2 airs WUFT Classic and the radio station recently entered into an agreement to acquire a FM translator for the Gainesville area and WUFT-HD2 (WUFT Classic) now airs on that translator at 102.7 mhz in Gainesville. WUFT Classic provides another new revenue stream to WUFT-FM's operation and a wonderful outreach vehicle in this very arts-supportive community.

As was stated in prior MD&A's, WUFT-FM operates the only radio news facility in the Gainesville-Ocala, Florida market and this clearly positions the radio station (and associated public television station WUFT-TV and online site WUFT.org) as a leader in the marketplace for local news, information and entertainment. With this designation as the sole radio source for local news and information comes a great responsibility and WUFT's staff and the student multimedia journalists involved in the radio station through the College of Journalism & Communications' Innovation News Center take it seriously. Producing hours of local news, community information and weather content on a daily basis WUFT-FM will continue to solidify its position as a leader in the Gainesville-Ocala, Florida marketplace.

BUDGETS

While certain Station accounts are under University budgeting control, the University of Florida Foundation accounts and certain other expenditures, such as in-kind and indirect support amounts, are not budgeted. Accordingly, budget information amounts are not presented within these special-purpose financial statements.

CONTACTING MANAGEMENT

This financial narrative is designed to provide a general overview of the Station's finances and to show accountability for the contributions received by the Station. If you have questions about this report or a need for additional financial information, contact the Station at:

Cash and cash equivalents	$ 1,137,072	$ 1,141,479
Restricted cash	179,007	207,828
Total cash and cash equivalents	$ 1,316,079	$ 1,349,307
Reconciliation of operating loss to net cash used in operating activities:		
Operating loss	$ (253,869)	$ (162,457)
Adjustments to reconcile operating loss to net cash used in operating activities:		
Depreciation	227,708	219,395
Loss on disposal of capital assets	-	42,027
Decrease (increase) in certain assets:		
Underwriting receivables	(12,851)	20,587
Grant receivable	-	82,998
Prepaid program costs	(30,233)	(13,114)
Due from affiliate station	-	(5,051)
Decrease in certain liabilities:		
Accounts payable and accrued expenses	(32,898)	(228,647)
Due to University of Florida	-	(118)
Deferred revenue	(5,396)	(70,939)
Compensated absences	-	(54,473)
Total adjustments	146,330	(7,335)
Net cash used in operating activities	$ (107,539)	$ (169,792)

The accompanying notes to financial statements
are an integral part of these statements.

WUFT-FM
A PUBLIC TELECOMMUNICATIONS ENTITY OPERATED BY
THE UNIVERSITY OF FLORIDA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016 AND 2015

(1) **Summary of Significant Accounting Policies:**

The following is a summary of the more significant accounting policies of WUFT-FM (the "Station"), which affect significant elements of the accompanying special-purpose financial statements:

(a) **Reporting entity**—The Station is a department of the University of Florida (the "University") located in Gainesville, Florida and conducts various public broadcasting functions. The President of the University is responsible for the management of the University and the Station operates as a department of the University under the control of the Station manager. The financial statements include only those funds, under the administrative control of the Station manager, that relate directly to the operations of the Station, including funds held by the University of Florida Foundation, Inc. (the "Foundation"). These statements do not purport to present the financial position or results of operations of the University as a whole.

(b) **Basis of accounting**—For financial reporting purposes, the Station is considered a special-purpose government engaged only in business-type activities. Accordingly, the Station prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America for proprietary funds, which is similar to those for private business enterprises. Accordingly, revenues are recorded when earned and expenses are recorded when incurred. The Station's accounting policies conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB).

(c) **Net position**—In the statements of net position, net position includes the following:

Net investment in capital assets—consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any debt that is attributable to those assets.

Restricted—consists of assets that have constraints placed upon their use either by external donors or creditors or through laws, regulations or constraints imposed by law through constitutional provisions or enabling legislation, reduced by any liabilities to be paid from these assets.

Nonexpendable restricted net position—consists of endowment and similar type funds in which donors or other outside sources have stipulated that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

Expendable restricted net position—includes resources in which the Station is legally or contractually obligated to spend resources in accordance with restrictions imposed by external third parties.

Unrestricted—consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

When an expense is incurred that can be paid using either restricted or unrestricted resources, the Station's policy is to first apply the expense towards restricted resources, and then towards unrestricted resources.

(1) **Summary of Significant Accounting Policies:** (Continued)

(d) **Cash and cash equivalents**—For purposes of reporting cash flows, cash and cash equivalents include cash on hand and cash in demand accounts with original maturities of three months or less. University cash deposits are held in banks qualified as public depositories under Florida law. All such deposits are insured by Federal depository insurance up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool in accordance with Florida statutes.

(e) **Restricted cash**—Restricted cash represents cash held with the University that is restricted as to withdrawal or use under the terms of certain contractual agreements.

(f) **Underwriting receivables—**Underwriting receivables are stated at the amount management expects to collect from outstanding balances. Receivables are carried at their estimated collectible amounts. Credit is generally extended on a short-term basis; thus accounts receivable do not bear interest. Based on the Station's historical information, credit losses, when realized, have not been significant.

(g) **Costs incurred for programs not yet broadcast**—Costs incurred for programs not yet broadcast (prepaid program costs) are recorded as a deferred asset. Such costs relate to programs purchased or produced by the Station that will be broadcast subsequent to year end. Programs to be completed and broadcast within one year are classified as current assets whereas programs to be completed and broadcast in more than one year are classified as non-current assets. At June 30, 2016 and 2015, there were no long-term costs incurred for programs not yet broadcast. As the programs are broadcast, the costs incurred will be included in operating expenses. Program status is evaluated annually. Costs associated with programs not considered to have future benefit are adjusted to net realizable value.

(h) **Capital assets**—Capital assets purchased or acquired with an original cost of $5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives of the assets which range from 5 - 40 years. Depreciation expense for the years ended June 30, 2016 and 2015 was $227,708 and $219,395, respectively.

(i) **Revenue recognition**—State appropriations are recorded as revenue in the statements of revenues, expenses and changes in net position when an expenditure is recorded.

Membership contributions are recognized as revenue in the period they are received.

Program production grants are reported as deferred revenues for programs not yet broadcast until the specific program is broadcast. At such time, amounts are included as revenues and the expenditures are recorded.

Revenue related to program underwriting for subsequent fiscal years is reflected as deferred revenues in the accompanying statements of net position. Revenue is recognized when the related program is aired.

(1) **Summary of Significant Accounting Policies:** (Continued)

Contributed support represents expenses paid on behalf of the Station by others outside the reporting entity, and includes donated materials or facilities, as well as indirect administrative support. These amounts are recorded in revenue during the period in which the support is provided.

(j) **In-kind contributions**—Contributed materials, supplies, facilities, and property are recorded at their estimated fair value at the date of donation. The Station reports gifts of equipment, materials, professional services and other nonmonetary contributions as operating revenue in the accompanying statements of revenues, expenses, and changes in net position.

If the fair value of contributed materials, supplies, facilities, and property cannot be reasonably determined they are not recorded. Donated personal services of nonprofessional volunteers, as well as national and local programming services, are not recorded as revenue and expense as there is no objective basis available to measure the value of such services.

Contributed advertising and promotion are recorded at the fair value of the contribution portion of the total value received.

(k) **Pledges and contributions**—The Station engages in periodic fundraising campaigns manifested by offering some special programs and on-air and mail fundraising appeals. These appeals encourage supporters, both individuals and organizations, to provide financial contributions to the Station for enhancement of program offerings and other operating expenses. Financial contributions are frequently evidenced by pledges received from responding listeners. Contributions including unconditional promises to give and membership receipts are recognized as revenue in the period received or given. However, uncollected pledges are not enforceable against contributors and not shown as assets on the statements of net position. Contributions and collected pledges are components of the unrestricted operating fund inasmuch as their usage is not limited to specific activities of the Station. This usage is consistent with appeals for contributions and pledges.

(l) **Corporation for Public Broadcasting Community Service Grants**—The Corporation for Public Broadcasting (CPB) is a private, nonprofit grant-making organization responsible for funding more than 1,000 television and radio stations. CPB distributes annual Community Service Grants (CSGs) to qualifying public broadcasting entities. CSGs are used to augment the financial resources of public broadcasting entities and thereby to enhance the quality of programming and expand the scope of public broadcasting services. Each CSG may be expended over one or two Federal fiscal years as described in the Communications Act, 47 United States Code Annotated, Section 396(k)(7). In any event, each grant must be expended within two years of the initial grant authorization.

According to the Communications Act, funds may be used at the discretion of recipients for purposes relating primarily to production and acquisition of programming. Also, the grants may be used to sustain activities begun with CSGs awarded in prior years. Certain *General Provisions* must be satisfied in connection with application for and use of the grants to maintain eligibility and meet compliance requirements. These *General Provisions* pertain to the use of grant funds, record keeping, audits, financial reporting, mailing lists, and licensee status with the Federal Communications Commission.

Any remaining CSG funds at fiscal year-end are reported as restricted cash and restricted-expendable net position on the accompanying statements of net position.

(1) **Summary of Significant Accounting Policies:** (Continued)

(m) **Indirect support provided by the University of Florida**—Indirect support from the University consists of allocated institutional support and physical plant costs incurred by the University for which the Station receives benefits. The fair value of this support is recognized in the statements of revenues, expenses, and changes in net position as donated facilities and administrative support and is allocated as an expense to each of the functional expense categories. Indirect support is reduced by any overhead charges assessed by the University (see Note 13).

(n) **Production revenue**—The Station uses the percentage-of-completion method of accounting for production revenue, whereby the cumulative production revenue earned equals the ratio of costs incurred to the estimated total costs at completion applied to the total committed revenues from outside sponsors. Production costs include charges by subcontractors plus all direct labor and other direct costs. Indirect and general and administrative expenses are charged to expense as incurred. Cost estimates on programs are reviewed periodically as the work progresses and adjustments, if needed, are reflected in the period in which the estimates are revised.

(o) **Operating activities**—The Station's policy for defining operating activities as reported on the statements of revenues, expenses, and changes in net position are those that generally result from the provision of public broadcasting and instructional technology services, and from the production of program material for distribution in those services. Revenues associated with, or restricted by donors to use for, capital improvements, and revenues and expenses that result from financing and investing activities are recorded as non-operating revenues.

(p) **Program and production underwriting**—Revenue for program underwriting is recorded on a pro-rata basis for the period covered and for production underwriting on an estimated percentage-of-completion basis.

(q) **Income taxes**—The Station is owned and operated by the University of Florida which is a part of the State of Florida's educational system. Accordingly, the Station is exempt from Federal income taxes. Any taxable income is aggregated at the University level and taxes paid, if any, are paid by the University.

(r) **Functional allocation of expenses**—The costs of providing the various programs and other activities have been summarized on a functional basis in the schedule of functional expenses. Accordingly, certain costs have been allocated among program and supporting services benefited based on total personnel costs or other systematic bases.

(s) **Use of estimates**—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period, accordingly, results could differ from those estimates.

(t) **Advertising costs**—Advertising costs are expensed in the period in which they are incurred. Advertising expense for the years ended June 30, 2016 and 2015, was $69,314 and $67,186, respectively.

(1) **Summary of Significant Accounting Policies:** (Continued)

(u) **Compensated absences**—The liability for compensated absences represents employees' accrued annual and sick leave based on length of service subject to certain limitations as defined by state statutes and University policies. Beginning in fiscal year 2015, there is no liability for compensated absences recorded as it was determined that contributions to the University grant leave pool during the year are expensed as contributions are made and the University is responsible for paying the accrued annual and sick leave of Station employees.

(v) **Subsequent events**—The Station has evaluated events and transactions for potential recognition or disclosure in the financial statements through January 13, 2017, the date the financial statements were available to be issued.

(w) **Reclassifications**—Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation. These reclassifications had no effect on net income for 2015.

(2) **Funds Held and Invested by the University of Florida Foundation, Inc. on Behalf of the Station:**

The Station has an agreement with the University of Florida Foundation, Inc., whereby Station funds are held and invested by the University of Florida Foundation, Inc. on behalf of the Station. These amounts are included in the accompanying statements of net position of the Station as "Funds held and invested by the University of Florida Foundation, Inc. on behalf of the Station". Total cash and investments held by the Foundation is $951,912 and $1,104,907 as of June 30, 2016 and 2015, respectively. These totals included $108,953 and 118,384 of restricted funds as of June 30, 2016 and 2015, respectively.

Funds held and invested by the University of Florida Foundation – valued at the Station's ownership of a share of an investment pool, not the underlying securities. The Station relies on policies developed and administered by the University and UF Foundation for managing interest rate risk or credit risk for these investment pools.

All funds held and invested by the University of Florida Foundation, Inc. on behalf of the Station are for the unrestricted use by the Stations and are invested in uninsured and unregistered investments, which are held in the name of the University of Florida Foundation, Inc. All funds held and invested by the University of Florida Foundation, Inc. on behalf of the Station are reflected at fair value. The Foundation categorizes the fair value measurement of these investments within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Station has the following recurring fair value measurements as of June 30, 2016 and 2015:

Funds held and invested by the Foundation – recorded at the Station's ownership of a share of an investment pool, not the underlying securities. These funds are valued at NAV of units held, as reported by the Foundation. The Station reviews and evaluates the values and assesses the valuation methods and assumptions used in determining the fair value of these investments. Because the investment pool is not readily marketable, NAV is used as a practical expedient, and the estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had a readily available market for such investment existed, and differences could be material. The Station relies on policies developed and administered by the University and the Foundation for managing interest rate risk or credit risk for these investment pools.

(2) **Funds Held and Invested by the University of Florida Foundation, Inc. on Behalf of the Station:** (Continued)

In accordance with GASB 72, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The following table discloses the nature and risk of investments for which fair value has been estimated using the net asset value per share (NAV) of the investments as a practical expedient as of June 30, 2016 and 2015, respectively.

	Investments Measured at Net Asset Value as of June 30, 2016			
	Total Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Funds held and invested by the Foundation	$ 951,912	$ -	Daily	N/A

	Investments Measured at Net Asset Value as of June 30, 2015			
	Total Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Funds held and invested by the Foundation	$ 1,104,907	$ -	Daily	N/A

(3) **Capital Assets**:

Capital asset activity for the year ended June 30, 2016, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Building and building improvements	$ 6,027,682	$ -	$ -	$ 6,027,682
Furniture, fixtures and equipment	1,301,706	48,962	(18,082)	1,332,586
Total	7,329,388	48,962	(18,082)	7,360,268
Less: Accumulated depreciation	(2,617,938)	(227,708)	18,082	(2,827,564)
Capital assets, net	$ 4,711,450	$ (178,746)	$ -	$ 4,532,704

Capital asset activity for the year ended June 30, 2015, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Building and building improvements	$ 6,027,682	$ -	$ -	$ 6,027,682
Furniture, fixtures and equipment	1,375,143	-	(73,437)	1,301,706
Total	7,402,825	-	(73,437)	7,329,388
Less: Accumulated depreciation	(2,429,953)	(219,395)	31,410	(2,617,938)
Capital assets, net	$ 4,972,872	$ (219,395)	$ 42,027	$ 4,711,450

(4) **State Retirement Plans:**

As the Station is a department of the University, any pension liability is reported by the University.

(a) **Florida retirement system**—Essentially all regular employees of the University are eligible to enroll as members of the State-administered Florida Retirement System (FRS). Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. These include a defined benefit pension plan (Plan), with a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan).

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service, except for members classified as special risk, who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Members of both Plans may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, and death benefits, and annual cost-of-living adjustments.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS-participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

The State of Florida establishes contribution rates for participating employers. Contribution rates during the years ended June 30, 2016, 2015 and 2014, were as follows:

	Years ended June 30,		
	2016	**2015**	**2014**
Regular	7.26%	7.37%	6.95%
DROP	12.88%	12.28%	12.84%

The Station's retirement liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the University. For the years ended June 30, 2016, 2015 and 2014, total contributions were approximately $14,000, $16,000 and $17,000, respectively. Employees contribute 3% of their salary to their FRS account.

(4) **State Retirement Plans:** (Continued)

(b) **Florida Retirement System Investment Plan (Investment Plan)—**As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. University employees, including employees of the Station, already participating in the State University System Optional Retirement Program or DROP are not eligible to participate in this program. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded with the same employer and employee contributions, that are based on salary and membership class (Regular Class, Senior Management Service Class, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings regardless of membership class. There were no participants during the fiscal years ended June 30, 2016 and 2015.

(c) **Optional retirement program—**Section 121.35, Florida Statutes, provides for an Optional Retirement Program ("Program") for eligible university instructors and administrators. The Program is designed to aid State universities in recruiting employees by offering more portability to employees not expected to remain in the FRS for eight or more years. The Program is a defined-contribution plan, which provides full and immediate vesting of all contributions submitted to the participating companies on behalf of the participant. Employees in eligible positions can make an irrevocable election to participate in the Program, rather than the FRS, and purchase retirement and death benefits through contracts provided by certain insurance carriers. The Station contributes 5.15 % of the participant's salary, less a small amount used to cover administrative costs and employees contribute 3 % of the employee's salary. Additionally, the employee may contribute, by payroll deduction, an amount not to exceed the percentage contributed by the University to the participant's annuity account. The contributions are invested in the company or companies selected by the participant to create a fund for the purchase of annuities at retirement.

There were no participants during the fiscal years ended June 30, 2016, 2015 and 2014. There were no contributions to the ORP during the years ended June 30, 2016 and 2015.

During the fiscal years ended June 30, 2016, 2015 and 2014, and as of June 30, 2016, 2015 and 2014, the ORP held no securities issued by the University.

(5) **Post-Employment Benefits:**

Pursuant to the provisions of Section 112.0801, Florida Statutes, all employees who retire from the Station are eligible to participate in the State Group Health Insurance Program, an agent multiple-employer, defined benefit plan (Plan). The University subsidizes the premium rates paid by retirees by allowing them to participate in the Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the Plan, on average, than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. As the Station is a department of the University, any other post-employment benefit liability is reported by the University.

(6) **Risk Management Programs:**

The Station is exposed to various risks of loss related to torts; damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Pursuant to Section 1001.72(2), Florida Statutes, the University participates in State self-insurance programs providing insurance for property and casualty, workers' compensation, general liability, fleet automotive liability, Federal Civil Rights, and employment discrimination liability. During the 2014-15 fiscal year, for property losses, the State retained the first $2 million per occurrence for all perils except named windstorm and flood. The State retained the first $2 million of losses per occurrence with an annual aggregate retention of $40 million for named windstorm and flood losses. After the annual aggregate retention, losses in excess of $2 million per occurrence were commercially insured up to $54 million for named windstorm and flood losses. For perils other than named windstorm and flood, losses in excess of $2 million per occurrence were commercially insured up to $200 million; and losses exceeding those amounts were retained by the State. No excess insurance coverage is provided for workers' compensation, general and automotive liability, Federal Civil Rights and employment action coverage; all losses in these categories are completely self-insured by the State through the State Risk Management Trust Fund established pursuant to Chapter 284, Florida Statutes. Payments on tort claims are limited to $200,000 per person, and $300,000 per occurrence as set by Section 768.28(5), Florida Statutes. Calculation of premiums considers the cash needs of the program and the amount of risk exposure for each participant. There have been no significant reductions in insurance coverage from the prior year coverage. Settlements have not exceeded insurance coverage during the past three fiscal years.

Pursuant to Section 110.123, Florida Statutes, University employees may obtain healthcare services through participation in the State's group health insurance plan or through membership in a health maintenance organization plan under contract with the State. The State's risk financing activities associated with State group health insurance, such as risk of loss related to medical and prescription drug claims, are administered through the State Employees' Group Health Insurance Trust Fund. It is the practice of the State not to purchase commercial coverage for the risk of loss covered by this Fund. Additional information on the State's group health insurance plan, including the actuarial report, is available from the Florida Department of Management Services, Division of State Group Insurance.

(7) **Lien on Property and Equipment:**

The Federal government has a ten-year priority lien on any facilities and equipment purchased with funds from the National Telecommunications and Information Administration (NTIA). The lien is to ensure that telecommunications facilities funded with Federal monies will continue to be used to provide public telecommunications services to the public during the period of Federal interest. The original cost of the property acquired with NTIA funds was approximately $599,000 and the liens expire in years through 2019.

(8) **Significant Concentrations:**

Information related to significant concentrations of revenues and credit risk for financial instruments owned by the Station, except as otherwise disclosed, is as follows:

(a) **Cash and cash equivalents**—The Station has demand deposits held at financial institutions for the University which are secured up to FDIC limits. Amounts in excess of FDIC limits are secured by collateral held by the financial institution which is pledged to the State of Florida Public Deposits Trust Fund. There are no uninsured cash balances at year-end.

(8) **Significant Concentrations:** (Continued)

(b) **Funds held and invested by the University of Florida Foundation, Inc. on behalf of the Station**—The Station has an agreement with the Foundation, whereby Station funds are held by the Foundation on behalf of the Station as described in Note 2. The Station has no policy requiring collateral or other security to support these amounts.

(c) **Revenues**—The Station received significant revenue three sources. Membership contributions provided approximately 14%, the University provided approximately 44% and 49% and business and industry support provided approximately 21% and 20% of cash support and donated facilities during the years ended June 30, 2016 and 2015, respectively.

(d) **Underwriting receivables**—Underwriting receivables represent support from local business and industry. At June 30, 2016 and June 30, 2015, two contracts representing 35% and 45% of accounts and underwriting receivables, respectively. The Station has no policy requiring collateral or other security to support its underwriting receivables.

(9) **Restrictions on Net Position:**

Investment income, including unrealized appreciation and depreciation, is allocated to the restricted expendable account on a pro rata basis based on the nonexpendable balance. In accordance with state law, and absent any donor restrictions, these funds are then available for expenditure when the specific donor criteria are met. Also included at June 30, 2016 and 2015, are certain grant funds totaling $124,831 and $200,585, respectively. At June 30, 2016, contributions totaling $46,055 were included in restricted expendable net position. There were no contributions included in restricted expendable net position at June 30, 2015,

The following displays the total endowment balance as of June 30, 2016 and 2015:

	2016	2015
Total endowment balance	$ 108,953	$ 118,384
Less: Appreciation portion deemed restricted expendable	1,031	8,258
Permanently restricted nonexpendable balance	$ 107,922	$ 117,380

(10) **Community Service Grants:**

The Station receives a CSG from the Corporation for Public Broadcasting annually. The CSGs received and expended during the most recent fiscal years were as follows:

Year of Grant	Grants Received	Expended			Uncommitted Balance at June 30, 2016
		2013-14	2014-15	2015-16	
2015-17	$ 232,144	$ -	$ -	$ 107,313	$ 124,831
2014-16	207,403	-	19,720	187,683	-
2013-15	329,638	153,402	176,236	-	-

(11) **Risks and Uncertainties:**

The Station invests in uninsured and unregistered investments, held and managed by the University of Florida Foundation, Inc. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the carrying values reported in the statements of net position.

(12) **Nonfederal Financial Support (NFFS):**

The Corporation for Public Broadcasting (CPB) allocates a portion of its funds annually to public broadcasting entities, primarily based on NFFS. NFFS is defined as the total value of cash and the fair market value of property and services received as either a contribution or a payment and meeting all of the respective criteria for each.

A "contribution" is cash, property or services given to a public broadcasting entity for general operational purposes. Support received as a contribution by a public broadcasting entity must meet the following criteria to be includable as NFFS: (1) the source may be an entity except the Federal government or any other public broadcasting entity; (2) the contribution may take the form of a gift, grant, bequest, donation or appropriation; (3) the purpose must be for the construction or operation of a noncommercial, educational public broadcast station or for the production, acquisition, distribution or dissemination of educational television or radio program and related activities; and (4) the recipient must be a public broadcasting entity on behalf of a public broadcast station.

A "payment" is cash, property or services received by a public broadcasting entity from specific sources in exchange for specific services or materials. Support received as a payment by a public broadcasting entity must meet the following criteria to be includable as NFFS: (1) the source must be a state, any agency or political subdivision of a state, an educational institution or organization or a nonprofit entity; (2) the form of the payment must be appropriations or contract payments in exchange for specific services or materials; (3) the purpose must be for any related activity of the public broadcast station; and (4) the recipient must be a public broadcasting entity on behalf of a public broadcast station.

Reported NFFS for the Station was $2,858,479 and $2,892,110 for the years ended June 30, 2016 and 2015, respectively.

(13) **Overhead Charges:**

Starting July 1, 2010, the University began charging departments a Responsibility Centered Management (RCM) overhead allocation. For the year ended June 30, 2016, the Station was allocated $17,616 in RCM. For the year ended June 30, 2015 the Station received a credit of $10,718 for RCM charges paid in previous years. In addition, the Station was assessed other overhead charges by the University of $11,113 and $9,388 for the years ended June 30, 2016 and 2015, respectively.

(14) **Compensated Absences:**

Compensated absences liability activity for the years ended June 30, 2016, was as follows:

Balance July 1, 2015	Additions	Deletions	Balance June 30, 2016	Amount Due Within 1 Year
$ 54,473	$ -	$ (54,473)	$ -	$ -

For the year ended June 30, 2016, the compensated absences liability was removed as the University is responsible for paying out accrued annual and sick leave of Station employees.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Trustees,
University of Florida:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of WUFT-FM (the Station), a public telecommunications entity operated by the University of Florida, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Station's basic financial statements, and have issued our report thereon dated January 13, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Station's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Station's internal control. Accordingly, we do not express an opinion on the effectiveness of the Station's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did not identify any deficiencies in internal control.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Station's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
